Certificate 3 Guarantee

Under the Certificate 3 Guarantee Program, the Queensland Government will subsidise the training costs for a range of certificate level III qualifications.

The student must supply relevant evidence of the circumstances that support the enrolment in a lower-level qualification, either at the individual, industry or pre-apprenticeship level.

Lower-level vocational qualifications

Outside of delivery to VETiS students, certificate I and/or II level vocational qualifications on the Queensland Training Subsidies List may only attract a government subsidy under the Certificate 3 Guarantee where the training falls within one of the following:

- individual — where the student is assessed as a disadvantaged learner that faces barriers to training participation and requires additional support prior to enrolment in a certificate III vocational qualification (in accordance with Performance Standard 4, item C of the PQS Policy, including the requirement for the PQS to develop a training and support plan for each student); or
- pre-apprenticeship — where the qualification provides basic trade skills to facilitate entry into a traditional apprenticeship relevant to the basic trade skills delivered. These are lower-level qualifications on the Queensland Training Subsidies List that do not have a certificate III pathway subsidised under the Certificate 3 Guarantee; or
- cohort-specific programs — where the qualification is approved for delivery as part of a project funded under SQW, Indigenous VET Partnerships or Strategic Industry Initiatives.

The student must supply relevant evidence of the circumstances that support the enrolment in a lower-level qualification, either at the individual or pre-apprenticeship level, or as part of an approved cohort-specific project.

Vocational Education and Training in Schools (VETiS)

All Queensland secondary school students in Years 10, 11 and 12 can access VET within any recognised qualification across a range of industries in a school environment; however VET investment funding can only be used for those qualifications identified as employment stream qualifications. Students who complete a certificate III (or higher) qualification at school can access further government subsidised training after school e.g. Year 12 fee-free training and the Certificate 3 Guarantee.

Higher Level Skills

The program provides a government subsidy to support eligible individuals to access one subsidised training place in selected certificate IV level and above qualifications, or priority skill sets. The aim is to assist individuals to gain the higher level skills required to secure employment or career advancement in priority industries or to transition to university. Employers may also be able to access training to address workforce development needs.
